

# BERMUDA PUBLIC COMPANIES UPDATE

JULY 2018

We are pleased to present the latest edition of our Bermuda Public Companies Update which features a recap of significant transactions involving Bermuda public companies listed on the NYSE and Nasdaq for the first half of 2018.

## DEAL NUMBERS DECLINE, GROSS PROCEEDS RISE

Following a solid 2017 (229 IPOs), the first half of 2018 saw a decline in deal numbers with 66 IPOs year-to-date on the NYSE and Nasdaq. Political uncertainty was likely a contributing factor. However, the trend towards larger transactions continued with growth in IPO proceeds. The first quarter of 2018 was the biggest in terms of gross proceeds in more than three years, at US\$17 billion.

## AN ACTIVE HALF YEAR FOR BERMUDA PUBLIC COMPANIES

Bermuda companies have seen a busy half year, with two IPOs, a spike in M&A activity and the conclusion of Seadrill Limited's major restructuring (see right). In general, market activity by Bermuda public companies in H1 2018 has been focused in the telecoms, insurance, financial, aviation and pharma sectors.

Airport retail company Hudson Limited launched its IPO on the NYSE in January and biopharma company Kiniksa Pharmaceuticals Ltd launched on Nasdaq in May, raising a combined total of US\$901.5 million. Conyers acted as issuer's counsel on both transactions. Secondary offerings by a number of other companies, including Norwegian Cruise Line Holdings offering in the amount of US\$1 billion, brought the total value of Bermuda company securities offerings on the NYSE and Nasdaq in H1 2018 to approximately US\$11.5 billion.

Nearly two-thirds (21/32) of the transactions involving Bermuda public companies in this first half have been M&A deals, with an approximate value of US\$25.8 billion. There have been some high-profile insurance deals including AXA SA's bid to acquire XL Group Ltd for US\$15.2 billion and American International Group's agreement to acquire Validus Holdings Ltd for US\$5.6 billion.

We have included details of the market activity referenced above in this edition of our update, along with statistical information about the Bermuda public companies market which we hope will be of interest to our legal colleagues, clients and Bermuda market followers.

## FEATURED DEAL

### Seadrill emerges from chapter 11

On 2 July, Seadrill Limited, one of the world's largest offshore drilling companies, announced that it had emerged from chapter 11 bankruptcy after successfully completing its plan of reorganisation (the "Plan"). Since February 2016 Conyers has advised Seadrill as lead Bermuda counsel on all aspects of the Plan and related judicial proceedings in Bermuda, where Seadrill and many of its companies are registered. The firm continues to advise Seadrill on the implementation of the new group structure under Bermuda law.

The Plan equitized approximately US\$2.4 billion in unsecured bond obligations, more than US\$1 billion in contingent new-build obligations, substantial unliquidated guaranty obligations, and approximately US\$250 million in unsecured interest rate and currency swap claims, while extending near term debt maturities. This provided Seadrill with over US\$1 billion in fresh capital, leaving employee, customer, and ordinary trade claims largely unimpaired. With re-profiled debt and substantial liquidity, Seadrill has announced that it is in a strong position to execute its business plan.
