We provide services for every stage of the business life cycle. Our aim is to build long-term partnerships with our clients, so that we can provide optimum advice every step of the way.

Registered Offices

We maintain registered offices for clients in each of the jurisdictions we serve. This is an efficient way for you to meet your statutory and regulatory responsibilities without the burden of running your own setup in a location that may be distant from your operating offices.

Our registered office service provides your company with a physical address that is shown on the public register, enhancing corporate transparency. The registered office is also your legal entity's official point of contact for governments, supervisory bodies and other regulatory agencies.

Our services include:

- the use of a local mailing address and a mail forwarding service
- preparation and submission of annual returns, as directed
- a location for the maintenance of statutory corporate or partnership records
- certification and notarisation of documents
- obtaining certificates of good standing
- timely and efficient response to official notices
