VASP Service Offering

Count on us to provide calm, authoritative guidance on all your Cayman Islands regulatory and risk management requirements. We can help you with everything from proactive guidance, insight into regulatory developments and dealing with regulatory bodies to advising on investigations and providing robust representation where litigation arises.

As the advances in cryptocurrency and blockchain technology continue at an astonishing rate, the surrounding regulatory environment is actively trying to keep pace. As regulation continues to tighten and becomes more complex, we at Conyers are excellently placed to assist you through our comprehensive corporate, advisory and litigation capabilities. Whether it's advice on incorporation vehicle choice, regulatory reviews and engagement with competent authorities, we support our clients across a broad range of legal, regulatory and compliance matters.

Our Regulatory & Risk Advisory team comprises lawyers across multiple different time-zones who are positioned to provide an overarching perspective on regulation and providing assistance in an ever changing industry landscape.
